## Flat Cable Laminating Tapes

**SP-946** 0.050mm

Version of SP-915 with increased filler. This results in a tape which has more rigidity and therefore improved handling characteristics.  
Cleaner stripping of contacts

**SP-2230** 0.040mm

NEW

Thinner version of SP-946

**RD-677-S** 0.050mm

Flame retardant polyester film based on a flat cable tape – siliconised on the reverse side to reduce roll friction during handling.
