

STRIP MASK FOIL TAPES

LM-190

Original combination of SP-510 (0.025mm) laminated to 9515-6. Suitable for up to 180°C temperature exposure.

LM-044A

Easier removal tape – masking tape ends deformed facilitating easier operator removal of masking tape.

LM-394B

Masking tape layer increased to 0.050mm – resists temperatures up to 220°C

LM-044G

Similar to LM-044A. Masking tape ends deform allowing easier manual removal. More suitable for higher temperature exposure.
